

Environmental Policy Statement

Mulalley & Co. Ltd is a Building Company operating in the United Kingdom. The Directors recognise that the Company has responsibilities to the environment locally, nationally and internationally.

Mulalley & Co. Ltd is committed to reducing/minimising the environmental impact of our works including the reduction and control of waste, the prevention of pollution and the use of sustainable/environmentally friendly products.

Specifically we are committed to:

- Establishing and maintaining an Environmental Management System compliant with the requirements of the current version of BS EN ISO 14001.
- Complying with existing and future relevant environmental legislation, and other Codes of Practice to which Mulalley subscribes, especially the Control of Pollution Act and the Environmental Protection Act.
- Developing our framework for setting and reviewing our environmental objectives, targets, management programmes and policy to ensure continuous improvement in our environmental performance.
- Considering environmental factors during material selection and procurement for a Contract wherever we have an influence.
- Carrying out an assessment at each site and producing environmental management plans to reduce noise, dust, odour and waste.
- Developing and implementing a system to monitor performance of Company vehicles and the energy consumption of our buildings.
- Seeking the active support and co-operation of all employees in the pursuit and maintenance of responsible environmental standards.
- Working with our stakeholders, suppliers and sub-contractors to improve environmental performance on our works.
- Operating with honesty, integrity and a policy of fair-trading in all areas of our activities.
